Supporting the healing process – and your business

Recognizing the needs of today's homecare industry, Meridian Medical LLC is committed to investing in the future... as well as your success.

As a leading manufacturer and supplier of gel overlays, seating/positioning cushions, lymphedema treatment and specialty support surfaces, our reputation has been built on superior product quality, exceptional value and unparalleled "live" customer support. Now, with Meridian's expanded product line of Air Lift Oxygen Carriers and CareFore Medical's line of respiratory products, we offer a combined 56 years of innovation and manufacturing expertise between the companies.

With distribution facilities in both Knoxville, TN and Golden, CO, we offer shorter lead times and "one stop shopping" ... saving the homecare provider time and money.

If you've worked with us before, you already know how we offer rapid turnaround (as little as five business days) on custom orders...how we can provide custom sizes from pediatric to bariatric...and how, if you should ever encounter a problem, we make sure it is resolved immediately. Our knowledgeable customer service team is ready to help you "live" over the phone, with suggestions and solutions.

If you're just being introduced to Meridian Medical, you may discover that you already know our quality: we are the OEM for a number of the industry's most recognized names. And with all of our products, whether manufactured or distributed, our team of professionals are committed to providing superior product quality, value and personalized customer service to you, our valued customers.

On behalf of everyone at Meridian Medical, we thank you for your interest, and we welcome the opportunity to work with you.

Look for these quality Meridian brands

For over 25 years, Air Lift's broad line of soft-sided carriers have provided mobility and convenience for homecare providers and patients. With a wide range of oxygen carriers, mobility carriers, equipment accessories and home health professional bags, Air Lift delivers exceptional quality and value serving the needs of the homecare market.

Zephyr™ by Air Lift® value shoulder bags provide a cost-effective carrier solution. With a basic design and only the necessary features, Zephyr shoulder bags deliver extraordinary value with Air Lift's dependable quality.

CareFore Medical branded respiratory products are made from the highest quality materials, and offer a low cost alternative to brand named products. CareFore gives healthcare providers superb quality at a value price.

Our group II alternating air pressure mattress line comes with an unprecedented 2 year warranty. We use higher quality material in our air cells to insure our customers and their patients get the highest quality, most dependable products. UltraCare mattresses are easy to use and highly effective. Our Perimeter Plus mattress is the only one like it in the industry. Page 7.

The Meridian Gel-Lite products are proudly made in the United States. We have a complete line of foam and gel wheelchair cushions as well as group 1 overlays. Our commitment to quality and service makes us the best choice for your support surface needs. Check out the HDC-007Z Gel-Overlay on page 4.

The CoreComfort product line from Meridian Medical offers the best foam mattresses at a competitive price. In today's market, most products are made with cheaper foam and covers. The result is foam breakdown and no support for the patient. With Meridian Medical and our US-made line of pressure reduction Group I mattresses, you can rest assured you will have a quality product at a fair price. Page 5

Lymphedema and Venus Insufficiency is an area of focus that all our DME partners should explore. Contact a Meridian Medical representative to learn how to grow your business by utilizing the Meridian Medical Medi-Press system. It is a simple product for the end user with the highest clinically valued Segmental Gradient Garments by Medicare. This Meridian Medical 510K product distinguishes us from being just another HomeCare distributor. Page 15

Air Lift's broad line of soft-sided carriers springs from a heritage of innovation and quality. Air Lift products find their legacy in the original soft baby carrier, the Snugli. Inspired by Air Lift founder Ann Moore's Peace Corps experience as a pediatric nurse in Africa, the Snugli baby carrier has helped ease the lives of millions of parents worldwide. Ann's Snugli design has been honored with permanent placement in the Smithsonian Institute and was recognized by the Wall Street Journal as one of the ten most important inventions of the 20th Century.

This same tradition of innovation, quality and value provides the foundation for Air Lift's line of soft-sided oxygen carriers, mobility carriers, equipment accessories and home health professional bags. With the widest range of quality soft-sided products available, Air Lift has built a remarkable reputation for service, delivery and exceptional value serving the needs of homecare providers and patients for over 20 years.
